

Microsoft Fabric Workshop FAQ

Q. Who should attend this Workshop?

A. The workshop content is designed for Data Practitioners - Data Engineers, Architects, and BI Analysts types of roles.

Q. Will the sessions be recorded?

A. Yes, the sessions will be recorded and made available on-demand in the Azure Depth Enablement portal within 5-10 business days after the live sessions have concluded.

Q. Will the presentation decks be shared?

A. No, the presentations will not be shared. This content can be viewed in the on-demand sessions.

Q. When can we start the hands-on labs?

A. The hands-on labs will be available on Day 2 of the event. The lab expiry date will be displayed within the lab environment.

Q. Is there live support available for the hands-on labs?

A. Yes, there will be live support available during the entire session (lecture and hands-on labs). Please post your questions in the Q&A chat.

Note: Once the event has concluded lab support will not be available. Please bring your lab questions to the team during the live event.

Q. Will there be any breaks during the sessions?

A. Yes, there are daily 5–10-minute breaks approximately 2 hours into the sessions.

Q. Are any digital badges or certificates of completion for attending this Workshop?

A. Digital badges will not be offered for completion of the Microsoft Fabric Workshop.

Q. How do I update my time zone?

A. To set your local time zone please select Time Zone on the top navigation bar and select your region. The session start times will be displayed according to your time zone. This way, you can easily see when each session begins.

Q. Will the sessions be delivered in any language other than English?

A. All live sessions will be delivered in English. The on-demand sessions will be offered with captions in 12 languages.

Q. What languages will closed captioning be available in?

A. Captions will be available in English, French, Spanish, Chinese Simplified, Chinese Traditional, German, Russian, Italian, Japanese, Korean, Turkish, and Portuguese.

Q. How do I access closed captioning?

A. After you have launched your session from the Azure Depth Enablement portal select CC in the bottom right of the video screen to turn on closed captioning and select your preferred language.
